

Cancer Cured!

And why don't they want you to know it?

By Dean L. Gano, Kris Halterman, and E. J. Ledet; April 2025

Now that the [Deep State activities](#) ¹ have been exposed and are being investigated for their malfeasance by President Trump and [DOGE](#), ² so many “truths” the [Sheeple](#) ³ have been gorging on for decades are being illuminated for what they are: [Deceptions](#) ⁴ and [BIG FAT LIES!](#) ⁵

And the biggest deception is that there is a cure for cancer, and it's been known for years! WOW, just stop and think about that for a minute. The United States spends about [21 billion dollars](#) ⁶ on cancer care each year, so a cure would mean a lot of lost revenue for the Medical Industrial Complex. Of course, the psychopaths who own our healthcare system do not want you to know about this. So, let's examine the truth.

In a [recent interview](#) ⁷ (please watch it) with Tucker Carlson, a famous Doctor, Surgeon, and Scientist, [Dr. Patrick Soon-Shiong](#) ⁸ revealed that he discovered a way to kill and prevent cancer several years ago, but the Federal Government has tried to block him at every step of his journey to bring it to the people. He has worked with the Federal Government since 2004 helping them implement [Project BioShield](#) ⁹ and during that time he developed a Chemotherapy drug called [Abraxane](#) ¹⁰ to treat breast, lung, and pancreatic cancers. But he did not like the way this chemotherapy also killed healthy cells, so he kept working on ways to enhance the natural killer cells in our immune systems, which don't harm the body's natural immune cells.

Note: The following is a summary of the interview with Tucker Carlson.

He also worked on [Operation Warp Speed](#) ¹¹ to develop a COVID-19 therapy injection which tested 100% effective at clearing SARS-CoV-2 viral infections in March of 2020. But, during initial FDA testing, Francis Collins (NIH Director) and Anthony Fauci (NIAID Director) made sure his test results never received public awareness. And when he tried to go around them, they made sure he couldn't get the raw materials to do so.

In this interview with Mr. Tucker Carlson, Dr. Soon-Shiong tells us that he started seeing pancreatic and colon cancer in children 8 to 13 years of age; something no one had ever seen before. Also, like many doctors, he has never seen so many adults who had mild forms of cancer, develop into Stage-4 cancers, aka “turbo-cancer,” and then die within a few months.

In his search to find out why this is happening, he found that the body's adaptive immune system was not producing the T-cells needed to fight infections of all kinds, including cancerous cells; these are called T-cell lymphocytes and they are suppressed

from forming by the spike proteins found in the SARS-CoV-2 virus and the COVID-19 vaccines.

What does this mean? People who have not received the mRNA COVID injection, who've survived stage 1 or 2 cancers still produce T-cells, which slow down the cancer growth and have survived for years. After they received the COVID jab, the spike proteins destroyed the remaining T-cells within their immune system, the cancer cells returned "with a vengeance," and sadly, they died.

Dr. Soon-Shiong goes on to say that anyone who received the COVID-19 gene-therapy injection shot, their body was flooded with these spike proteins which can travel through the cell walls and can be found throughout the body. The results have left millions of innocent victims with a dysfunctional immune system, caused by a foreign spike protein that was supposed to stay at the injection site temporarily. Instead, it has [been proven](#) ¹² to do long-lasting damage to the World's population in numerous ways, including cancer. To prevent continuous damage to human life the spike proteins must be cleared from the body.

Note: Depending on how your own immune system works and if you are taking vitamins D and C, NAC, melatonin, nattokanise, curcumin, zinc, etc. the spike proteins may have been removed naturally. [Everyone is different](#). ¹³ For information on how to detox [go here](#). ¹⁴

Dr. Soon-Shiong says that the SARS-CoV-2 virus is not a respiratory virus but is an oncogenic virus, meaning it can cause [cancer](#). ¹⁵ As we discussed in our [Cancer paper](#), ¹⁴ SARS-CoV-2 is an RNA virus, and the spike protein, [known as a prion](#), ¹⁶ from both the SARS-CoV-2 virus and the COVID-19 vaccines bind to a gene in our bodies that's known as the guardian of the genome: the P53 tumor suppressor gene. And as [explained by Dr. Ryan Cole, MD on November 23, 2022](#) ¹⁷ "It also binds to a breast cancer gene and an ovarian cancer gene. There's an uptick of some unusual cancers that I've been seeing." The spike protein binding to these receptors allows tumors to grow unimpeded. And, just like Dr. Patrick Soon-Shiong claims, Dr. Cole pointed out in November of 2022 that: "The suppression of this medical information is alarming!"

But this warning and many others like it, have gone unnoticed by our healthcare community and the Federal Government agencies responsible for the People's health.

Another disturbing thing is that Dr. Soon-Shiong found that some of his young patients had SARS-CoV-2 viruses, which cause COVID-19 disease, being reproduced in their colons two years after getting the COVID-19 vaccine. So, they were not only NOT being cleared, but they were also reproducing the spike proteins; reminding us once again that [everyone's immune system is different](#). ¹⁸ To further substantiate this finding, a [recent study](#) ¹⁹ found the immune system response to mRNA COVID-19 vaccines was

to produce proinflammatory cytokines. Too many of which can damage the immune system by destroying the T-cells.

As discussed earlier, when COVID-19 came along he went to find a solution that would fight or kill it. Using his already developed BioShield formula, which enhances the T-cells in our bodies, Dr. Soon-Shiong created a treatment to do just that. He spent three billion dollars of his own money without any government funding to develop a highly effective injectable agent. It is not a vaccine. It is a therapeutic treatment that strengthens our T-cells to fight ANY infection better and naturally.

Not only is his therapeutic highly effective at preventing and curing the SARS-CoV-2 virus, but it also actually clears the virus from your system, so you cannot reproduce it or spread it to others. Something the Big Pharma vaccines never could do but claimed they did. This was Fauci, Collins, and Big Medicine's reasoning for mandatory vaccinations. Dr. Collins and Fauci knew this and never told anyone. Deep State [Criminals!](#)²⁰

To get an idea of how sick Big Medicine, which is owned by Big Pharma is, Dr. Soon-Shiong shares their dogma with the following example, which is a fundamental dogma taught to every medical student: [Find a symptom and give them a drug.](#)²¹

He asks Tucker Carlson to call any Oncologist or Primary Care doctor and ask them why they take a [Complete Blood Count](#)²² (CBC) test. If you do, this is how they will answer you.

Well, we need to see if you are anemic so we can give you a drug to fix that.

We need to see if your platelets have gone down so we can give some meds to fix that.

We need to see if etc., etc., etc.

Do you look for lymphocytes in the CBC? Answer: NO!

Do any of these treatments kill cancer? Answer: NO!

So, the only thing in our blood that naturally fights all foreign pathogens and cancer; the T-cell lymphocytes, the Oncologist or Primary Care Doctor does not even look for. Really?

He goes on to say that these cells are the fundamental factors that keep us healthy, but no one even evaluates them. Instead, we treat cancer with chemotherapy (which only [increases survival by 3 to 5%](#)²³), radiation, and steroids which kill ALL of the T-cells, and OBTW makes trillions of dollars for Big Pharma and Big Medicine; dollars paid by the Federal Government which has contributed to the bankruptcy of our country and reduced the standard of living for most people.

Dr. Soon-Shiong's BioShield treatment turns on three distinct types of T-cells to kill cancer, viruses, and other pathogens. He calls it the "triangle offense." The details of how this works can be found in this article ["Anktiva as a lymphocyte rescue molecule: Unlocking the power of NK cells and T cells"](#)²⁴ in Urology Times. In this article we learn that Anktiva was approved by the FDA in April 2024 for bladder cancers and has many ongoing trials for other cancers including Prostate cancer. Dr. Soon-Shiong [successfully treated Alex Trebek and Senator Harry Reid](#).²⁵ Trebek, who had pancreatic cancer, said that before his treatment his numbers for tumor marker CA-19 were at about 3,500 and after treatment went down to below 100.

And Dr. Soon-Shiong is not the only one using this approach to fight cancer. The [Cancer Research Institute](#)²⁶ has also performed tests and say that immunotherapy has the potential to be a universal treatment for cancer, based on the positive responses from millions of patients.

It is wonderful news that we now have a cancer cure, yet the thing that makes this revelation so sad is that, after COVID, most people don't trust our healthcare system. As it is right now, only half of America has confidence in [science](#)²⁷ itself. Alarming, trust in our doctors and hospitals dropped from 71% in 2019 to 40% in 2024.

Before the COVID-19 pandemic most Americans held a blind trust in the healthcare community, but even worse than this loss of trust is the fact that most Physicians don't even realize how they have been manipulated by the medical education systems they attended, the agencies that govern them, and the organizations they belong to, like the American Cancer Society, et al.

Fortunately, there are some physicians who want to change this, and they have started a new alliance called the Independent Medical Alliance. Dr. Scott Atlas, MD, provided [his vision](#)²⁸ for this new group of free thinkers, and in his opening remarks of their first meeting in Atlanta on April 5, 2025, he says this about the [censorship](#)²⁹ on COVID.

COVID fully exposed the massive, across-the-board, institutional failure, including the shocking reality of overt censorship in our country, the loss of freedoms and the frank violation of human rights - in this country, one explicitly founded on a commitment to freedom.

As Robert F. Kennedy Jr. [gets the NIH under control](#),³⁰ these lies will be further exposed and hopefully we can restore trust in medical science, so true science can reign again. Stay positive and [question everything](#).³¹

We hope you found value in this article and if you did, we would appreciate your thoughts by responding to us at [contact us](#):

Epilog: Although the information contained herein is derived from over 30 sources which are believed to be reliable, this is science and as we learned in [COVID-19 and Real Science](#),³² all facts are conditional and forever up for adjustment and change. So, if you find evidence to show we are wrong in some way, we welcome the chance to create a common reality for all to see, so please share your knowledge.
